TERMS AND CONDITIONS

Orders of \$3.00 or more will be shipped prepaid parcel post in the U. S. Orders of less than \$3.00 should include \$.50 to help cover packing and postage. Terms: Cash with order, please remit by check or money order. We guarantee all stock to be true to name, of first class size and quality, and to reach you in live and healthy condition. We take every precaution to prevent mistakes, but if mistakes should occur, we will gladly make adjustments; however, we will in no case be liable for an amount greater than the purchase price.

Plants will be shipped at the proper planting time and orders will be filled as rapidly as weather and digging conditions permit. Irises and Daylilies will be shipped during the spring, summer and fall. Peonies are shipped in the fall in September, October and November.

QUALITY STOCK

After more than 30 years experience we are firmly convinced that it pays to buy or sell only stock of good quality. Hundreds of customers over the years have found our plants outstanding in size and quality, and many of them have written us to that effect. We will continue to try to merit your confidence.

LISTING

This present modest list does not include all the varieties which we grow. Some of the newer and older varieties have been omitted because of short supply or limitations of space. We will quote on some of the unlisted varieties if requested.

EXTRAS

It is our policy to include extra value with every order in the form of heavy plants, clumps and extra varieties. We select extra varieties carefully to compliment each order.

Iris Culture

Irises are not particular as to soil but need sunshine and good drainage. They may be planted in spring, summer, or fall. Moderate amounts of good fertilizers will increase size and quality, but too much fertilizer may cause rot. We recommend planting in early summer or in the fall here in the mid-west.

Select Irises

AL BORAK—Strong, flaring brown	\$1.50
AMAZON TAN—Huge golden tan	.75

Fall Blooming Iris Collection

Fall blooming Irises are intermediate between Dwarfs and tall bearded in size and season of bloom in the spring. With reasonable care and moisture they will re-bloom in the fall. They are at their best in the south and central parts of the country, but sometimes re-bloom even in northern sections.

SPECIAL COLLECTION OF 10 FALL BLOOMING IRISES SELECTED TO GIVE A WIDE RANGE OF COLOR AND TYPE, LABELED, POSTPAID,
ONLY

\$3.00

Daylily

Culture

Daylilies are among the most satisfactory flowers which can be grown by the average gardener. They are remarkably free from disease and pests and will thrive under a wide range of soil and weather conditions. Plant any time during the growing season or in the fall and give them shallow cultivation.

THERON—Recurved deep red
TYROL—Red bicolor
WARPATH—Mahogany red

Peonies

Peonies are shipped in the fall in September, October and November. We send out strong, well balanced divisions of 3 to 5 eyes or more. The list of doubles includes many of the finest sorts in commerce; they have been proven by years of testing and with reasonable care and attention will produce a wealth of bloom. Japanese and single varieties are extremely decorative in the garden and should not be overlooked. Peonies do well in any good garden soil and will respond well to fertilization, but too much fertilizer can be harmful. Choose a well drained location with plenty of sun and be careful not to cover them too deeply. The eyes should be covered only about one and one-half inches.

Double Peonies

ADOLPHE ROUSSEAU—Tall red	\$1.00
ADONIS—Pink, yellow collar	\$1.50
